App Prerequisites

- 1 - iOS 11 or greater
- 2 - MyDTT™ account with owner/team level access to locations.
- 3 - If locations utilize either Palo Alto Global Protect or Cisco AnyConnect VPN solutions, prior connection to those apps is required.

Opening the App

Login to the DTT iOS Mobile Application

If the DTT iOS mobile app is not already open, locate the DTT mobile application icon and tap on it.

- 1 - From the login screen, tap on the “Username” field and enter your MyDTT™ username.
- 2 - Tap on the “Password” field and enter your MyDTT™ password.

3 - Optional - tap on the "Remember Me" slider to save your username and password for future use.

4 - Tap on the "Sign In" button.

5 - **Note:** TouchID capability is coming soon!

Live Video

Navigating Live Video

1 - Tap on the "Live Video" button at the top of the menu to open live video for your locations.

2 - Tap on any location to begin viewing cameras.

3 - Tap on the **4** boxes on the top right of the screen to increase the size of each screen.

4 - Tap on the **9** boxes on the top right of the screen to increase the size of each screen.

Landscape and Full Screen

- 1 - To view any camera in full screen in live view, tap on any camera that you wish to view.
- 2 - To listen to audio, tap on the audio icon on the bottom left section of the screen.
- 3 - To save a screenshot of the current view, tap on the camera image on the bottom right section of the screen.

4 - To view the image in landscape mode, turn your phone 90 degrees.

Creating Custom Views

1 - In the "Live Video" menu, tap on the "Custom Views" button on the bottom right section of the screen.

2 - Tap on the "Add View" button to start adding a custom view.

3 - Tap on the "View Name" field and enter the name you would like the custom view to have.

4 - Tap on the group you would like to add cameras from.

5 - Tap on the store number you would like to add cameras from.

6 - Tap on the checkbox of each camera that you would like to add.

7 - Tap on the "Done" button on the top right section of the screen to save the custom view.

Edit Custom Views

- 1 - In the "Custom Views" menu, tap on the edit button on the top right corner of the screen.
- 2 - Tap on the custom view you would like to edit.
- 3 - Tap on the group you would like to add / remove cameras from.
- 4 - Tap on the store number you would like to add / remove cameras from.
- 5 - Tap on the name of the cameras that you would like to add / remove.
- 6 - Tap on "Done" to save the custom view.

Viewing Custom Views

- 1 - In the “Custom Views” menu, tap on the custom view you would like to view.
- 2 - To remove cameras from the custom view, tap “Edit” on the top right corner of the screen.
- 3 - Tap on the red “X” on any camera you would like to remove.
- 4 - Tap “Done” to save the custom view.

Note: These cameras are removed from the custom view until they are added again.

Deleting Custom Views

- 1 - In the "Custom Views" menu, tap on "Edit".
- 2 - Tap on the "Minus" symbol on the left side of the custom view name.
- 3 - Tap on the "Delete" button on the right side of the screen.
- 4 - Tap "Done" to confirm deletion of the custom view.

Recorded Video

Navigating Recorded Video

- 1 - From the main menu, tap on "Recorded Video".
- 2 - Tap on "Select Location".
- 3 - Tap on the store number you wish to view a camera from.
- 4 - Tap on "Select Camera".

5 - Select the camera you wish to view recorded video.

6 - Tap "Select Date".

7 - Select a date.

8 - Tap "Select Time".

9 - Select the time you wish to view recorded video for.

10 - Tap "Done" to begin recorded video viewing.

Recorded Video Controls

- 1 - The pause button at the bottom of the screen will pause video
(To resume video, tap the pause button again).
- 2 - The forward arrow will skip forward 5 minutes.
- 3 - The backward arrow will skip backward 5 minutes.
- 4 - Dragging the ball on the progress bar will skip to the time on the video, based on its position.
- 5 - To take a screenshot of the current image, tap on the camera symbol.
- 6 - To toggle audio, tap on the audio symbol.

Mobile App Settings

- 1 - To open the mobile app settings, open the main menu and tap "Settings".
- 2 - Toggle the "Remember Me" button to automatically save your login credentials.
- 3 - TouchID functionality coming soon.
- 4 - Tap "Sign Out" to log out of the application.
